Project Overview

Development of the **Morya Fitness - Gym Management & POS Billing System**. A fast, modern, responsive web application customized for gym administrative operations: streamlined member onboarding with auto-generated Member IDs, flexible membership plans with non-destructive renewal history, split and partial fee collection with printable commercial tax receipts and WhatsApp messaging, supplement inventory & retail sales tracking, operating expense logging, monthly business revenue and growth analytics, secure Admin authentication, and automated database backups.

Scope of Work

Service / Layer	Description
UI/UX Design	Modern light & glassmorphic responsive interface tailored for desktop PCs, laptops, tablets, and mobile devices with fast keyboard navigation and instant feedback.
Frontend Architecture	React 19 / TypeScript / Vite Single-Page Application (SPA) leveraging Lucide icons, Recharts interactive data visualization, and thermal/A4 receipt printing.
Backend Architecture	Python 3.11 / Django REST Framework (DRF) commercial API backend configured with modular architecture, JWT token authentication, and data validation serializers.
Database & Storage	PostgreSQL 16 relational database with ACID transactional consistency, automated schema migrations, and secure Docker volume data persistence.
Admin Security	Secure Admin authentication, inactivity auto-logout watchdog with countdown warning modals, and complete audit logging of administrative actions.
Membership & Renewal Engine	Configurable subscription tiers (Monthly, Quarterly, Half-Yearly, Annual), non-destructive subscription renewals preserving historical records, and automated expiry feeds (7, 3, 0 days).
POS Billing & WhatsApp Receipts	Partial and split payments ledger, automatic receipt numbering (MF-REC-YYYY-XXXX), custom discounts, and 1-click WhatsApp billing notifications with direct links.
Supplement Store & POS	Supplement product catalog (Proteins, Creatine, Pre-workouts), stock inventory deduction, and retail checkout billing with printed invoices.
Expense & P&L Analytics	Operational expense tracking categorized by Rent, Maintenance, Salaries, and Equipment with interactive monthly revenue vs expense P&L curves.
Cloud Hosting & Setup	Production cloud deployment with high-speed web access, SSL encryption, database configuration, and regular automated safety backups.

Deliverables

- **Fully Hosted & Operational Web Application:** Live, secure cloud-hosted Gym Management portal accessible across all devices (Desktop, Laptop, Tablet, Mobile).
- **Master Admin Access & Credentials:** Pre-configured master Administrator account with full management controls over members, plans, payments, and settings.
- **Pre-Loaded Gym Configuration:** Gym branding, custom membership plans, receipt numbering format, and contact details fully set up and ready to use.
- **Operational Walkthrough & Admin Training:** Complete guided training session on daily workflows: registering members, renewals, POS billing, receipt printing, and expense logging.
- **30 Days Free Technical Support & Maintenance:** Dedicated technical support for any software inquiries, bug fixes, or minor configuration adjustments post-launch.

Timeline

Estimated Duration: 7 – 10 days

Cost Breakdown

Service	Amount
Gym UI/UX Design & Responsive Web Application	₹5,000
Member Engine, Membership Plans & Non-Destructive Renewals	₹5,000
POS Billing, Partial Dues Ledger, Receipts & WhatsApp Alerts	₹4,000
Cloud Hosting Setup, Database & Security Deployment	₹2,000

Total Project Cost: ₹16,000

Payment Terms

- **50% Advance Payment:** Upfront booking & project setup fee (₹8,000).
- **50% Final Payment:** Upon live application development, operational walkthrough & admin credential handover (₹8,000).

Terms & Conditions

- **Revisions:** Up to 2 rounds of review updates and UI styling refinements included.
- **Additional Features:** Out-of-scope upgrades (e.g. biometric hardware integration or third-party paid SMS API) quoted separately.
- **Validity:** This proposal quote remains valid for 15 days from the date of issuance.
- **Warranty & Support:** Includes 30 Days Free post-launch bug fixing, system monitoring, and operational training.
